

Impact of MOUs

Department of Computer Engineering
2024 - 2025

About the Department

The Department of Computer Engineering at Don Bosco College of Engineering (DBCE), established in the year 2011 with an aim to make contributions towards the student community and society by providing a stimulating research environment complemented by quality teaching. The Department strives to enable students to acquire knowledge and skills in the subjects of Computer Science as well as enrich their personal, cognitive, social development and to equip them with skills preparing them for a challenging future.

For this reason, the Department strives to emulate an academic culture that is on par with the best institutes in the state.

Vision

Our Vision:

To be recognized as a center of excellence in the field of Computer Engineering, engaging with and maintaining a strong association with leading organizations, nurturing professionals and entrepreneurs with a positive mind set coupled with societal concern.

Mission

Our Mission

- To keep pace with the latest software and hardware development within and beyond the curriculum to nurture competent professionals.
- To enhance research opportunities and entrepreneurship opportunities in the department by promoting application-based education and partnership with the industry
- To foster a holistic learning ambience by inculcating professional behavior, problem solving skills, student- faculty collaboration and socio-ethical awareness.

The purpose of collaborating with reputed Institutes is threefold.

1. The Department recognizes the mutual interest in the fields of training and development and dissemination of knowledge.
2. To recognize the importance of an Industry Partner within its field of expertise
3. To provide a platform where experts from the corporate world and students come together to promote research and innovation ability among budding engineers.
